RE: New Referral Intake Process for Urology – EFFECTIVE JANUARY 21ST, 2019

The Urologists of the Southern Alberta Institute of Urology (SAIU) have partnered with Alberta Health Services to offer a single point of entry for all new adult urology referrals via a central intake system.

Effective January 21st, 2019, all new referrals received will be redirected to the Urology Central Intake for processing. The Urology Central Intake will send receipt of referral acknowledgement within 48 business hours (hours of operation: 8:00 am – 4:00 pm Monday through Friday; closed on statutory holidays). Referrals will be forwarded to appropriate providers assigned by intake protocol; triage will be completed by assigned providers within one to two weeks as per CPSA Standards.

Starting January 21st, FAX all ADULT urology referrals to UROLOGY CENTRAL INTAKE at 403.592.4250. Please utilize the [Urology Central Intake Referral form](#) (<https://www.albertahealthservices.ca/frm-21349.pdf>) as the cover page for your referral.

Further details regarding access to urology services and referral guidelines and will soon be available at the following locations:
